

Certification programme  
for corporate social  
responsibility

## For Life commitments

1. Commit to **CORPORATE SOCIAL RESPONSIBILITY** by orienting the business model to responsible practices.
2. Respect **HUMAN RIGHTS** and offer decent **WORKING CONDITIONS** to improve the well-being of workers.
3. Respect the **ENVIRONMENT, BIODIVERSITY** and **CLIMATE** by taking responsibility for one's environmental impacts and progressively implementing sustainable production methods.
4. Act for **SUSTAINABLE LOCAL DEVELOPMENT** through creating local jobs and developing the local anchorage of the company.
5. Integrate **RESPONSIBLE** and **ETHICAL SOURCING** practices based on a respectful dialogue with its suppliers and work with partners who favor responsible social and environmental practices.
6. Support **REPRESENTATION** and **PARTICIPATION** mechanism in producer operations to promote democratic values.

## For Life advantages

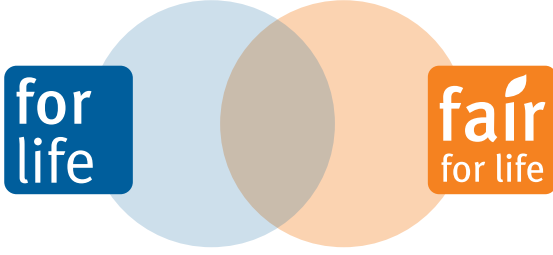

- A tool to manage social & environmental risks both at company & supplier level
- The ability to highlight your commitment towards your stakeholders
- An independent third-party certification
- An internationally recognized programme, based on key baseline reference standards (ISO 26000, ILO conventions, social criteria of IFOAM, etc.)
- An approach of continuous improvement, and the possibility to assess overall performance with regards to Corporate Social Responsibility
- The commitment to For life can be highlighted through logo use on products if every actor of the supply chain has been controlled according to the For life standard and under conditions

The For Life Programme defines a global approach for sustainable development. It is aimed at organisations and companies wishing to:

- Demonstrate their commitment to sound practices in the field of Corporate Social Responsibility (CSR).
- Optimize supplier selection processes by easily identifying business partners that share their values and commitment to CSR principles.

# Two complementary standards sharing a common ground

- Respect of human rights and fair working conditions
- Respect of the ecosystems and promotion of biodiversity, sustainable agricultural practices
- Respect and betterment of local impact

## CERTIFICATION FOR CORPORATE SOCIAL RESPONSIBILITY
